

New Licensing Requirement for RPE Supervisor Coursework

CSHA 5/13/08

***New licensing regulation now expected to become effective in ~~June~~
September 2008 requires:***

Six hour supervision coursework prior to starting a new RPE Supervision

Three hours supervision coursework every two years thereafter

(New requirements do not apply to university training program's internships/externships, and does not apply to SLP assistant supervisors although SLPA supervisors do have a different supervisor coursework requirement that must be completed within two years following the start of supervision.)

FAQs on SLPAB licensing website

Under "Licensees"; "FAQ's"; "New Supervisor Qualifications":

http://www.slpab.ca.gov/licensees/sup_faq.shtml

"New" RPE supervisors must complete 6 hours of continuing professional development training in supervision training prior to serving in a supervisory capacity.

All existing board-approved supervisors must take the initial 6 hours of supervision training within their current renewal cycle once the regulations take effect.

Following the initial 6 hour requirement, all supervisors will be required to take 3 hours of continuing professional development training in supervision for each two-year license renewal cycle as long as the license continues in a supervisory capacity.

If the continuing professional development training is obtained through a board-approved provider, it may be applied toward the 24 hours of continuing professional development required for license renewal.
