

# FUNDING THE FUTURE

*The CSHA Foundation Campaign*

## A Shared Cause - Donate Today!

Introducing **Funding the Future**, a \$1 million fundraising initiative from the California Speech Language Hearing Association Foundation (CSHAF).

Together, we're ensuring all Californians can exercise their fundamental right to engage and connect.

### WHAT'S NEW

A first-ever campaign to fuel CSHAF's future-focused blueprint to meet the demand in California for services and ensure that speech-language pathologists, speech-language pathology assistants, audiologists and audiology assistants are representative of our state's great diversity.

### YOUR ROLE

Support CSHAF's efforts to strengthen and grow the SLP and AuD professions so every child and adult gets the support they need to exercise their basic right to communicate.

### BENEFITS

Continuing education in the profession, awareness and support of our communities, support of diversity and inclusion, collaboration, student scholarships, teamwork - when you back success through the **Funding the Future** campaign, the outcome is life changing for tens of thousands of Californians.

### THE OUTCOME

By helping us reach our fundraising goal, you become part of the solution! So many in California benefit from CSHAF's work - those with speech or language disorders, individuals with hearing loss, people who stutter, autistic individuals, individuals recovering from injuries or strokes, those with feeding or swallowing disorders, voice disorders, as well as thousands of professionals and the universities that support them.

### YOUR MOVE

Support the CSHAF mission! A donation in any amount is an important step to this future.
